PORTFOLIO

NINE INDUSTRIAL PHOTOGRAPHY

Nine Industrial Photography Studio holds the record for industrial photography in this field by photographing more than 5 million square meters of the largest production and industrial lines. Our Industrial and Commercial Photography Atelier is a subsidiary of Megat International Craft Holding. Our services include industrial, commercial, food, architectural and production line photography. In the years of activity of this collection, we have succeeded in having continuous activity with more than 1000 big industrial and production brands.

Advanced photography and lighting equipment, experienced staff and professional photo editing departments have made us a leading industrial photography studio in the manufacturing and industrial industries. In this collection, we have displayed a selection of executive projects that we have done for some of the top brands over the years.

All photos in this collection were taken by NIMA ABOLGHASEMI and Nine Industrial Photography Atelier, and any use of it without official permission from the creator of the work is illegal.

With 23 years of peak expertise, accompanied by the largest manufacturing and engineering industries of the country.

STUDIO NINE

THE POET OF YOUR INDUSTRIAL STORY

We are proud to announce that at Nain Industrial Photography Studio, we are proud to be with the largest and most famous manufacturing and engineering industries in the country. This close cooperation has enabled us to see the best moments and beauties of production lines and the implementation process of their manufacturing and engineering industries.

We sincerely thank you for your trust in us, which has given Nain Industrial Photography Studio a unique reputation. It will be a great honor for us to continue this fruitful relationship with famous and brilliant brands."

Also, since we are always looking to improve and expand our services, we promise to start more research and planning to reach higher standards in the field of industrial photography.

These measures will be vital to increase the quality and accuracy in recording valuable production moments and technological advances in various industries. We seek to provide better, higher quality and more distinctive services for our industrial colleagues and seek to create a direct and more effective communication bridge between them and the audience of Nain Industrial Photography Studio.

A LASTING MOMENT IN THE PARS LENT

Industrial photography of a brake pad reveals the silent force behind safety and control. With a form designed for function and a surface engineered for precision, this component speaks not with flash—but with trust. Captured in calm tones and composed against a clean backdrop, the image brings out the strength within simplicity.

Beyond its appearance, this product symbolizes the unseen assurance that technology provides in motion. It's where physics meets protection, and material meets responsibility. This photograph invites the viewer to pause—to acknowledge the humble hero that stands between speed and stillness. Through this lens, industrial photography celebrates the quiet brilliance of parts that save lives without ever asking for attention.

A LASTING MOMENT IN THE

KABIR MOTOR

Industrial photography of a light blue motorcycle captures the delicate balance between technology and everyday lifestyle. The soft curves, clean surface, and subtle reflections turn this vehicle into more than just a means of transport—it becomes a symbol of modern urban freedom. With thoughtful lighting and a neutral background, the image isolates the machine in all its elegance, inviting the viewer to admire both its design and purpose.

In this frame, the motorcycle is not just a product of manufacturing but a part of life's rhythm—ready to move, to carry stories, to travel through the city's energy. It reflects the human desire for motion, simplicity, and style. This photograph transforms a familiar object into a piece of visual storytelling, where industry meets inspiration and the road becomes a stage for expression.

A LASTING MOMENT IN THE

ROYA SHOES

Industrial photography of athletic footwear captures the spirit of movement before the first step is even taken. These running shoes, with their sleek lines, breathable fabric, and gradient design, reflect a harmony between energy and elegance. Set against a clear background and framed with care, the image celebrates the fusion of sport and style.

Beyond comfort and performance, these shoes represent freedom—the desire to go further, faster, and lighter. They echo the rhythm of ambition, where every detail, from the sole to the lace, is crafted for motion. This photograph reminds us that innovation can live underfoot, and that beauty often begins where function dares to evolve. Through this lens, footwear becomes more than gear—it becomes a companion in motion, a design built for journey.

A LASTING MOMENT IN THE

NURBIX WOOD

Industrial photography of natural wood materials invites us into a quiet dialogue between nature and craftsmanship. Each piece, with its grain, color, and shape, tells a story carved by time and finished by human hands. The arrangement in this image is not random—it reflects balance, durability, and design at once. This is not just wood; it is a raw poetry of form and function.

These wooden elements carry the soul of construction. They are foundations of beauty and strength, bridging tradition and innovation in architectural thinking. The photograph captures not only their texture and tone, but also their purpose—to create spaces that breathe, to build with meaning. Through this lens, wood is not just a building block, but a living memory of earth, transformed into structure with warmth and intention.

A LASTING MOMENT IN THE

PINMED KIDS

Industrial photography of a pediatric neck brace captures the quiet strength of protection. In the gentle face of a child and the soft curve of the medical support, we see care made visible. This product speaks not through complexity, but through compassion—designed to heal, to hold, to comfort. With its subtle design and calming tones, the image transforms function into empathy.

More than a medical device, this neck brace is a promise: to ease discomfort, to restore mobility, and to wrap recovery in tenderness. It reflects the deep intention behind pediatric care—where engineering meets innocence, and design becomes a guardian. Through this lens, industrial photography honors the unseen heroes of healing, shaped for the smallest and most precious lives.

A close-up portrait of Nima Abolghasemi, a man with a beard and glasses, looking directly at the camera. The background is dark, and the lighting is soft, highlighting his facial features.

REGISTERED WORKS OF NIMA ABOLGHASEMI INDUSTRIAL PHOTOGRAPHER OF STUDIO NINE

Was born on December 15, 1984 in an artist family. As a young man, he learned the basics of art from his father, Mohammad Hadi Abolghasemi, a world-renowned professor, and gradually became interested in photography. Of course, he completed his studies in mechanical engineering and manufacturing, but due to his great interest in industrial photography, he started his activity in this field.

While studying mechanical engineering, he developed his skills in industrial photography and related software and learned its techniques and academic principles. He joined Megat Holding in 2006 as CEO and Artistic Director. With the valuable efforts and experiences he gained over the years, he became a professional and popular industrial photographer. Finally, in 2013, together with his brother, he established one of the Megat holdings called Nine Industrial Photography Studio, which was an independent industrial photography studio, and since then he has been the managing director and artistic director of Nine Industrial Photography Atelier.

Nima Abolghasemi has won many awards as the best industrial photographer and has always been admired by many professors and elders of this industry. In addition to industrial photography activities, he has a brilliant record in educating students of industrial photography and professional retouching, and the establishment of industrial photography workshops, especially production line photography, products and architectural photography for many students are among these records. He has also had significant activities in the field of industrial videography and editing of industrial and advertising videography. What we have presented here are small examples of these large industrial units that have been delivered to them after industrial photography and retouching.

M.AMIN ABOLGHASEMI

CEO & FOUNDER OF STUDIO NINE

Was born in 1980 in Tehran and entered the labor market after completing his studies in civil engineering. He started his activity in 2001 as the founder and chairman of the board of directors of Megat Holding companies.

In 2013, together with his brother, he established, equipped and launched one of the most equipped industrial photography studios in the field of photography and professional industrial retouching as one of the subsidiaries of Megat Holding.

Nine Industrial Photography Atelier has introduced itself as a leading brand in the field of industrial photography by attracting efficient human resources as well as using modern industrial photography and retouching equipment and relying on the significant support of prominent employers in recent years. The use of the most advanced equipment along with the knowledge and art of young and skilled manpower has accelerated its development and has now reached the highest level of industrial photography.

In addition to a wide range of clients, we are constantly working with more than 1,000 well-known industrial brands from corporations, large commercial holdings and powerful private and public sectors in the fields of industrial photography, graphics and web design. What we have presented here are small examples of these large industrial units that have been delivered to them after industrial photography and retouching.
